EXPERIENCE

CODELA | Computer Science Intern
Jan 2017 – Present | Istanbul, Turkey
I help Codela to grow its content. I assist the team by tagging, curating and solving interview questions of the best companies in the world.

SABANCI UNIVERSITY | Research Intern
Jun 2017 – Aug 2017 | Istanbul, Turkey
We've analyzed the competitive equilibrium in overlapping generations model and formulated a problem of endogenous dynamic price determination in the same model with Mehmet Barlo from Economics department in Sabancı University.

PROJECTS

GRADUATION PROJECT
Sep 2017 - June 2018 | Istanbul, Turkey
In this project, we analyze the paper-citation network with Random Walk based algorithms. As a result, we expect to evaluate papers and authors better than current methods (e.g. citation count, h-index). We also expect to have a better understanding about different fields and to identify promising fields based on this understanding.

SOFTWARE ENGINEERING COURSE PROJECT
Feb 2017 - June 2017 | Istanbul, Turkey
In this project, as a group of 4, we have developed a course management system using PHP and MySQL.

INTRODUCTION TO DATA SCIENCE COURSE PROJECT
Feb 2017 - June 2017 | Istanbul, Turkey
In this project, I have analyzed the effects of education in macro scale, and the factors affecting education in micro scale. For this purpose, I have constructed different machine learning models using Python.

More information about the above projects and more are available on my GitHub.
